The mission of the Fremont Public School Foundation is to support the Fremont Public Schools by:

★ Raising funds to support programs for the enhancement and enrichment of public education, which would not be possible through local tax funds.

★ Recognizing excellence in Public Education.

★ Enhancing the quality of education for all students.

★ Reinforcing positive relations within the community.

★ Enriching the quality of life for the Fremont Community.

## FPS Foundation Embarks on the “Chromebooks for Kids” Campaign!

**E**xciting things are happening at the Foundation! We are currently in the midst of raising \$198,000 to provide 720 Chromebooks for grades 5-12. Once these are purchased, every student in those grades will have a 1:1 Chromebook to student match, enabling each student to use his or her own device.

Quoting from a recent Fremont Tribune article by James Farrell, “One-to-one” computers are not entirely new to the Fremont Public Schools (FPS) system. The Johnson Crossing Academic Center, which houses FPS’ fifth- and sixth-graders, has been at full one-to-one implementation for all of the 2017-2018 school year, where it has become a major part of daily student life, bringing with it major successes and learning curves, according to the school’s principal, Brent Harrill and teachers in the building. The school provides an example of how one-to-one devices can have an impact on classrooms becoming increasingly interested in utilizing technology.

“What we’ve seen here at Johnson Crossing is an increased use of technology by our teachers,” Harrill said. “They’re embedding that deeper into the lessons. We’re getting deeper into coding. We’re getting deeper into STEM (Science, Technology, English and Mathematics) and robotics, and so having the device in the kids hands all the time has been really, really beneficial for that.”

In the 2016-2017 school year, Johnson Crossing began exploring what it would take to get a laptop in the hands of every student to eliminate the need for sharing devices, Harrill said. The school found it was close to fully implementing devices and began budgeting to make it happen for this school year. Now, each student in Johnson Crossing has access to his or her own Chromebook, a cloud-based laptop

that allows for internet access but has no hard drive. The expansion also allowed Johnson Crossing to shift some iPads down to the elementary school level, Harrill said.

At Johnson Crossing, the computers have helped accommodate evolving classrooms that are becoming increasingly centered on technology, Harrill states. Assignments are being handed in digitally via web-based apps like Google Docs. Online textbooks are becoming more popular. The school has saved substantially on printing and paper expenses, Harrill said. Previously, technology was carted around from classroom to classroom, which could put devices at risk. Now, each child is responsible for his or her own device, which Harrill says has led to less damage because the kids feel a stronger sense of ownership.

“The one-to-one technology has just been a game changer for us in the classroom,” Harrill said. “Before, we had to have kids maybe share or do partner work if they were using technology, but now they can do it completely on their own.” Harrill also believes the increased technology helps students be more engaged.

“As our kids have become more technology based — they’ve grown up with iPads in their hands since, like 2 years old — they’re really what we

## From the Executive Director’s Desk

**A**s you’ve read in this issue, our Foundation has taken on a major fundraising project called “Chromebooks for Kids”. Overall, I think you’ll agree that an excellent school system is a “must have” for a community for several reasons. A strong school system **attracts and keeps quality employees and their families. A great school system prepares students to be ready for the workforce and/or for post-secondary education**, depending on their choice. Lastly, a community requires an excellent school system to **attract new businesses**.

The Fremont Public School district currently has an excellent system and produces an excellent product! But in order to maintain that excellence and strive to keep pace with not just regional and national schools, but also schools world-wide, updates to curriculum, instruction and technology are continually ongoing.

called 'digital natives,' and they're ready for this. They're ready to push forward to the next frontier," Harrill said.

Technology has also allowed for more instantaneous collaboration between students and teachers — even outside of the classroom, according to fifth grade language arts teacher David LaDay, who says his phone is filled with emailed questions from students about homework assignments that often come in after school hours. He also helps the kids get access to the web-based apps that they use in the classroom, so they can always be connected to resources and assignments — and each other. "It creates an opportunity for kids to collaborate with students and teachers, classmates, 24/7," LaDay said.

"This helps set us apart and gives our kids a huge advantage as they move toward a more global society and they're using technology every day," Harrill said. "We don't want to have these kids leave the fifth and sixth grade level with one-to-one and then take a step backward and not have that available as they go 7—12."

You can help in this effort by sending your donations, marked for the Chromebooks for Kids Campaign, to:

## (Continued from page 1) From the Executive Director's Desk

At the classroom, building and district level, Curriculum revision and utilizing proven successful Instructional Strategies are always being enhanced and modified in order to improve teaching the content to all students by all teachers. Our district recognizes this is a cornerstone for improvement and leads and supports teachers in this process using a continuous improvement model.

This leaves the issue of Technology. As you are well aware, technology is constantly changing and evolving. Almost every Metro school and surrounding districts have already made the commitment to a 1:1 student to device ratio so all of their students have their own computing device. FPS is well along in providing this ratio, as well, but with limited funding, this process could take several more years to totally implement. **Can we afford to wait?**

This is where the Fremont Public Schools Foundation is stepping in with a fund-raising project called Chromebooks for Kids. Our goal is to purchase 720 Chromebooks to complete the 1:1 project so that all students, grades 5 – 12, will have access to their own device.

Much time and study has been given to choosing Chromebooks over other devices. In addition to being less expensive than an iPad or laptop, Chromebooks (\$275 each) have access to a free suite of Google programs, including Google Classroom, Google Cast, Google Docs, Google Earth and many others, keeping the cost down as those applications do not have to be purchased. In addition, access to free web-based applications also reduces the cost factor. Chromebooks also use cloud-based access technology, which is becoming the industry standard, enabling FPS students the experience of using the technology they will use in their future endeavors.

Please consider a donation to this effort!

Any support you can lend to this cause will be greatly appreciated! ★

## Fremont Public School Foundation Honors FHS Scholars at Annual Academic Achievement Award Banquet

Over 150 students, parents and faculty mentors were in attendance at the Fremont Golf Club in April for the Fremont Public School Foundation's 14th annual Academic Achievement Banquet.

Foundation Executive Director Joe Sajevec served as emcee for the event as the Fremont Public Schools Foundation honored 34 students who will graduate with a 3.75 GPA or higher, and who have completed the most academically rigorous curriculum the Fremont Public Schools have to offer. Also honored were their parents, who have nurtured these outstanding students, as well as the teachers who have mentored them.

Students and mentors were recognized and were all presented with a gift from the Foundation. ★

## The Fremont Public School Foundation Participates in the 2<sup>nd</sup> Annual Fremont Area "Big Give"

On May 8<sup>th</sup> of this year, the Fremont Public School Foundation, along with over 50 other non-profit groups from the Fremont area, participated in the Fremont Area Community Foundation's second annual day-of-giving called the "Big Give". A total over \$350,000 was raised during this event, a substantial increase over the 2017 total. Our Foundation raised over \$10,000 through this event, a 60% increase over last year's amount. These donations will be placed into the "Chromebooks for Kids" fund at the FPS Foundation.★

Fremont Area Community Foundation Board Member, Jane Dugan, presents the "Big Give" check to Joe Sajevic, Executive Director of the Fremont Public School Foundation.

## Alumni Student Aid Fund Celebrates Anniversary

This year marks the 19<sup>th</sup> year that the Alumni Student Aid Fund has provided financial assistance to deserving Fremont High School Graduates who are pursuing post-high-school education. In its history, the program has awarded over \$88,025 in scholarships. The program is administered by the Fremont Area Community Foundation, and those wishing to donate can send checks directly to the Community Foundation, or to the Fremont Public School Foundation, but be sure to specify that the Alumni Student Aid Fund is to be the recipient.★

## Dual Credit Financial Assistance Program Update

The FPS Foundation had a very successful kickoff to the Dual Credit Financial Assistance program during the second semester of the 2017-18 school year! Over \$11,000 in funding was awarded to 57 students who enrolled in the FPS Dual-Credit program, to pay for their tuition, books and in some cases, equipment.

The FPS Dual Credit Program includes areas such as Entrepreneurship, Economics, Welding, Statistics, Computer Science, Sociology, Speech, English Comprehension, Dream It Do It, and Health Occupations, with Criminal Justice soon to be added.

As the District continues to work with Midland University, Metro Community College, the University of Iowa and several other colleges to expand our dual credit offerings, the FPS Foundation will continue to support students, allowing them to pursue career pathways and college credit while completing their junior and senior years at FPS.★

## Fremont Public Schools Foundation Awards Creative Teaching Grants for 2018

The FPS Foundation once again honored creative teaching and innovative strategies of several faculty members in the district by awarding almost \$3,000 in funds for Creative Teaching Grants. With over 30 applications, the grants were distributed to 6 teachers representing elementary, middle and high school programs.

**The Creative Teaching Grant Program**, initiated in 2009-10, annually makes grants to allow teachers to create, design, or implement programs that promote student achievement, enhance the learning environment, or provide opportunities beyond the traditional classroom setting. The grant money may be applied to materials, training, equipment or special programs. With this year's grants, over \$46,000 has been directed back to classrooms and educators.

**Deann Berry, Media Specialist at Milliken Park Elementary**, requested and received monies to purchase 6 Codeapillars. These devices will help introduce coding and sequencing to elementary students at Milliken Park.

**Casie Larsen, Kindergarten teacher at Milliken Park**, was awarded a grant to purchase STEM (Science, Technology, Engineering and Math) materials for her students. STEM focuses on student-centered learning, engaging in questioning, problem solving, collaboration and hands-on, open-ended activities while addressing real-life issues.

**Linden Elementary 1<sup>st</sup> grade teacher, Heather Kroeger**, received funding to cover the costs of an Osmo Genius Kit and Coding Jam Game. These items will allow students to practice numbers, words visual thinking, creative problem-solving, coding, patterns and sequencing. The Osmo will be a tool that will be used for several years and by many students.

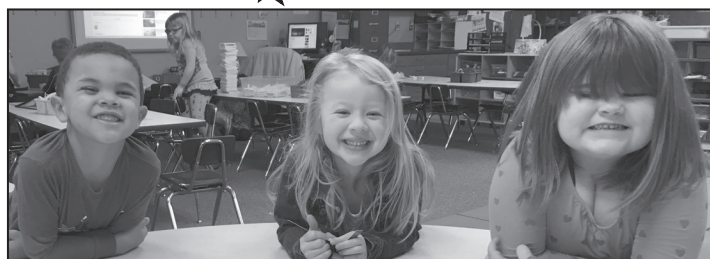

**Jayne Bieker, a Fremont Middle School 7<sup>th</sup> grade Social Studies teacher**, received money to purchase Google Expedition glasses. These glasses, when paired with a smartphone, will enable students to take virtual field trips to any location in the world and the content exposure can apply to a multitude of school subjects.

The **Guidance Department at Fremont Senior High** was awarded funding for transportation costs for on-campus college visitations for freshmen and sophomore classes. These visits are designed to give students the experience of life on a college campus, with the long-range goal of increasing the FHS graduates college attendance rate.

Finally, **Fremont High Media Specialist, Dana Fontaine**, requested and received funding to purchase a Makerspace unit and 3D printer for Fremont High School. This equipment will provide students with hands-on circuitry, programming, coding and engineering skills as they complete their projects.

As always, the FPS Foundation is proud of the quality of our teaching staff and their commitment to professional development, creativity and innovation, and the focus on improving student performance. The Foundation Board thanks everyone who remembers the Foundation with their memorial funds so that we can continue to fund these grant programs.

(\*Please note: Those requests not selected for a Creative Teaching Grant are posted on the FPS Foundation "Making a Difference" webpage (<https://fpsfoundation.com/fps-campaigns/>) for possible funding!)★

## 8th Annual Jeff Olson Memorial Alumni Basketball Tournament

Saturday, July 14, 2018

Midland University Hopkins Arena

900 N. Clarkson, Fremont, Nebraska

Get your team signed up!

Family, friends and teammates of Jeff Olson encourage any and all FHS alumni (boys and girls) to put a team together and join us for the 8th annual five-on-five basketball tournament. Registration deadline is June 30th, 2017. Entry fee is \$25 per player. Each team is guaranteed 2 games and each player will receive a tournament T-Shirt and a chance to enjoy some friendly competition with some fellow Tiger ballers. Funds raised will go to create youth YMCA scholarships.

Jeff passed away in 2011 from an undiagnosed heart condition and left a plethora of family and friends that thought a memorial basketball tournament would be a perfect way to honor and remember him. Ols, as he was called by most, was an outstanding, record-breaking basketball player and high jumper for the Fremont Tigers from 1985-1987.

## MARK YOUR CALENDAR!

### 15th Annual

### Fremont Public School Foundation Golf Tournament "The Jim Ebers Classic"

### Monday, July 9th at the Fremont Golf Club

(12 p.m. check in, 1 p.m. shotgun start)

The Fremont Public School Foundation's 15<sup>th</sup> annual Golf Tournament is scheduled for Monday, July 9 at the Fremont Golf Club. Five years ago, the Foundation Golf Tournament name was changed to the "Jim Ebers Golf Classic" in honor of long-time and enthusiastic Fremont Public School advocate Jim Ebers. As a member of the Foundation Board, Jim always supported and played in this event, even in his years of declining health. The renaming of the event is intended to provide a lasting tribute to Jim, who also loved the game of golf.

Enclosed is a flyer including a registration form and information for your use. We hope you will join us for a day of fun on Fremont's beautiful championship golf course. Get your team together now and send in registration information and payment (you may also pay at the event, but please get your roster in!) by July 2. We've also added a women's division to the Tournament, so ladies, you're invited to play, too!

The proceeds from this tournament will be used to support the Chromebooks for Kids Campaign. Our Foundation is in the process of raising \$200,000 to purchase 720 Chromebooks for the Fremont Middle School. Once accomplished, every student in grades 5-12 will have a Chromebook!

Join us for a great day and a great cause!

Dear Tigers,

We hope you like this issue of the Tiger Tracks Newsletter. Let us know if you have any suggestions to help make it more enjoyable or entertaining. We are always looking for story ideas, articles pertaining to alumni and teachers, and e-mail addresses.

The Alumni Association also assists each class by making available its address list for each class. Address lists may be purchased or pre-printed address labels are available at a nominal fee. **Please contact Virginia (Bader) Dunn 402-720-4692 or [vbaderdunn@hotmail.com](mailto:vbaderdunn@hotmail.com) or 1129 Somers Point Dr, Fremont, NE 68026** 🐾
